An interactive workshop to learn how to create vibrant portraits using colour theory to express personality and mood.

Artist Challoner Spokes will show you how colour can be used to create expressive portraits. Learn how to draw proportionally correct faces and how to use colour theory to create portraits that express personality, mood and energy.

Topics we will cover are:

- Examples of clever colours in art history
- How to draw the face
- Introduction to Colour theory
- Using colour to reflect personality and create mood
- Practical Session: Creating Your Own Masterpiece.
